About This Game

RUMP! It's a crazy and challenging 3D jump and run game with a high focus on speedrunning, competition, sick moves and ultimate multiplayer-mayhem!

You think the good old Mario Kart was the challenge for you and your friends? Now RUMP! is going to be busting your mind. There are no classic green, red or blue shells - but several other gadgets, that will make your friends rage when you fire them off.

Compete with your steam friends, dare them to defy you and beat their best times! Be rewarded with different skins, characters and even some nice powerups. If you want to, you can climb the ladder and score the best times of the worldwide ranking!

The singleplayer offers over 50 different maps with some serious jumping, collecting and raging action! Get all Coins to proceed to the next level, be fast to make sure to beat your friends' highscores! Achieve the Bronze, Silver and Gold times to receive cool awards, skins and other stuff.

In the multiplayer modes you can challenge up to three of your friends in a fight to the death! Multiple modes are planned - but the most important thing, as usual, will be: first to arrive wins. Use your body and your gadgets to get rid of your foes and proceed to unbelievable greatness! Missiles, Boosters, Hooks and other grim utilities can be used to make your way to the top. Compete with other players all over the world!

This is Star Control soundtrack at his best! Regularly listening it in my car! If you like Star Control 2 soundtrack you will like Star Control Origins one. Recommended. This game. Is a buggy mess of a game. Item interaction bugs, collision bugs of all kinds, instadeath when hitting some random walls, blue screens, you name it. Looks gorgeous though, and the weapons and zombie killing is nice.

Now, the reason I'm recommending it.. Find a friend, and play this thing. You will laugh your\u2665\u2665\u2665\u2665\u2665off while playing it. It's like watching a bad car crash from close by - everything is on fire, your friend is on fire, you are on fire, but you just can't help but play it and finish it.

Will you have fun? Yes, a lot of fun. Will it be a disaster? Yes.

Best game 10V10.. Great game if you can grab it on sale and you enjoy puzzle games. Well designed graphically, interesting concept, challenging puzzles, and cool euphoric trance music.

3V5 Stars. If you really want to play this game, just google Army Force Online.

It's essentially the same game, but I actually see people play it from time to time. And it's free, as it should be. quick and fun puzzle game yay ^^ . Nice Game and Fun :D. I used to say i would never play a game like this with the 2D world, But when i was told David Brevik made it one of the founding fathers of Diablo i just had to try it and WoW was i surprised as how addicting this game can be and i cant wait to see how much farther he takes it. Well worth the price in my opinion. Another freeware quality game on steam with a pricetag. It's good, but mind that it's pretty light on content, story and gameplay.

Edit: The main story is only 3 levels long. Omake entry indicates an existence of secret level but I'm not sure what conditions for it are.

Edit 2: there's no secret level, beating arcade mode nets you an sound test. Played on hard, raft got glitched and fell through at night, swim to land, see 5 enemies running full speed at me, yell for friends to help, 6 more enemies appear behind me, die as i hear cannibal screams and friendly laughs.

10V10. Adictive game 10/10

As documented in the Steam discussion forums this game has been broken since launch (in excess of two months at time of review), and the developer hasn't even acknowledged the issues.. **DLC verdict: Don't get it**

Comment:

It is one of those season passes that do not contain everything. And now that the multiplayer part of Arkham Origins is (supposed to be) shutdown it has even less appeal. The only thing that you get extra here are 2 Batman skins, both of which (just like the other skins) can only be used when you finish the main game at least once. Honestly the only good DLC is "Cold, Cold Heart" so get that one instead. Unless you are a DLC collector or die-hard Batman fan stay this pass if not worth your money. Included DLC - Cold, Cold Heart; Initiation; New Millennium Skins Pack; Infinite Earth Skins Pack. Not included DLC - Black Mask Challenge Map Pack; Online Supply Drop 1 (Not purchasable anymore because multiplayer is (supposed to be) shutdown); Invisible Predator Online DLC Pack 2 (Not purchasable anymore because multiplayer is (supposed to be) shutdown); Knightfall (Not purchasable on PC, but there is a workaround if you have Initiation, check [HERE](#))

[If you liked this DLC review you can find more in my Review Corner.. Beautiful game, but the controls are awful and the puzzles are boring. Avoid this crap.. This is really 2nd best waifu. 9/10](#)

[She was way cuter incoming DOA 6!. Unimaginative. Thought I would play the first one since I'm such a fan of the series but I wouldn't recommend this one to anyone who likes the Nancy Drew games. First of all, someone is straight up murdered in this one which is a little dark. Not only is he murdered, his head spins all the way around and he's pushed down the stairs and he's just a kid so that's a little upsetting. Obviously it's not shown in the game but that's what you're investigating so it's discussed at length. Not to mention the barely touched on drug addiction of one of the kid's classmates which is only mentioned but never resolved--there could have been a better way to do that in a game like this. Maybe an anti-drug message or SOMETHING but they just prove that he's all into steroids \(and he's a minor by the by\) and then say at the end that he got scholarships so he's REWARDED FOR HIS DRUG USE AS A MINOR. This game is just a little dark and unimpressive. Dark in the sense that it's inappropriate--though I wish it was better executed/more stylized. Generally disappointing because I beat the game in only 3 hours of game play.. You learn that humans built a very large ship to brag about themselves. But was it enough for them to have bragging rights for completing it? or Titanic had to be the safest ship ever just because she was as big as a hill? Upon finishing this point&click style hidden object game in which you play as a young ma'am except bonus level, you learn why it would have had to be remembered as a sad story with one way or another.. 7/10](#)

[genre: casual point and click/HO adventure game](#)

[+ the presentation is nice, with good implementation of live actors as the main characters](#)

[+ story is quite interesting in the sci-fi/mystery genre - you are after a mad scientist who's trying to use some kind of energy for bad cause](#)

[+ casual adventure game, with inventory based puzzles, some mini-games/puzzles and hidden objects scenes - not much pixel hunting, scenes are clear and beautiful - secret places to discover where you collect money which then you use to decorate your garden \(!\) - achievements also present](#)

[+ detailed diary and map](#)

[- acting is terrible, so is voice acting](#)

[- puzzles are generally very easy \(casual game though\)](#)

[in general, nice casual game, almost in the artifex mundi games quality level that we all know and like, not quite there though but it is a good choice for fans of the genre. good game need more players. I purchased this DLC through Steam but there are no routes. Why?. The quintessential display of gentlemanliness is to sip Pimms on a sunny afternoon whilst discussing the stock market with your good friend Quincent, and taking turns to annihilate each other in this 21st century substitute for chess. Classy and sophisticated, this is a gaming gem you will always treasure.](#)
